

# ELDER HIGH SCHOOL

## HONORS ALGEBRA I ENRICHMENT PROGRAM

### 2018-2019 ACADEMIC YEAR

The Mathematics Department of Elder High School offers an Honors Algebra 1 course to 8th grade students. Qualifying students will have the opportunity to learn mathematical concepts that are taught in a standard high school Honors Algebra 1 course. This may enable graduates of the enrichment program to enroll in a 10th grade math course upon entrance to high school.

### WHEN/WHERE DOES THE CLASS MEET?

The class meets from 7:00—7:45 a.m. at Elder High School four days a week.

### WHO TEACHES THE COURSE?

Mr. Jason Roush, Elder High School  
Math Instructor

### WHO IS ELIGIBLE?

The program is open to any student—male or female—who will be in 8th grade during the 2016-2017 academic year and is exceptionally talented and motivated to excel in mathematics.

### WHAT ARE THE QUALIFICATIONS?

90th Percentile or above on Standardized Test scores from grades 6 and 7. Earned A's in 6th and 7th grade mathematics classes and a recommendation from the 7th grade math teacher.

### WHAT IS THE COST?

The class fee is \$450. Checks may be made payable to Elder High School.

### WHAT IS THE GRADING POLICY?

The program goal is to make each student proficient in Honors Algebra 1. Students will be evaluated after each test. Any student with an average of 70% or below at the end of any quarter will be asked to leave the program. Tuition will not be reimbursed.

### WHAT TEXTBOOKS/CALCULATORS ARE USED?

The textbook will be loaned to students. The students will be borrowing a calculator from Elder.
